For Catarrhal Deafness and Head Noises

Here in America there is much suffering from catarrh and head noises. American people would do well to consider the method employed by the English to combat this insidious disease. Every one knows how damp the English climate is, and how dampness affects those suffering from catarrh. In England they treat catarrhal deafness and head noises as a constitutional disease, and use an internal remedy for it that is really very efficacious.

Persons who could scarcely hear a watch tick tell how they had their hearing restored by this English treatment to such an extent that the tick of a watch was plainly audible seven and eight inches away from either ear.

Therefore, if you know some one who is troubled with catarrh, catarrhal deafness or head noises, cut out this formula and hand it to them, and you will have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be easily prepared at home for about 75c, and is made as follows:

From your druggist obtain 1 oz. of Paracetamol (Double Strength), about 75c worth. Take this home and add to it 1/2 pint of hot water and 2 ounces of granulated sugar, stir until dissolved. Take a tablespoonful four times a day.

Paracetamol is used in this way not only to reduce by tonic action the inflammation and swelling in the Eustachian Tube, and thus to equilibrate the air pressure on the drum, but to correct any excess of secretion in the middle ear, and the results it gives are usually remarkably quick and effective.

Every person who has catarrh in any form should give this recipe a trial and free themselves from this destructive disease.—Advt.

court to-morrow morning and answer a charge of violating Section 2145 of the Penal Law. The section prohibits the holding of an exhibition for which admission is charged on a Sunday, and the charge against the men is based on the military tournament held at the Speedway yesterday.

The complaint against the men was made by Detective Daley and Brown, acting under orders from Inspector Murphy of the Fifteenth District, and the action is said to have been taken for the purpose of getting a court ruling on the blue law which was invoked by the Sunday Observance League and the Law and Order League to prevent the discharge of firearms at the entertainment yesterday.

It is understood the police action was not contemplated until the organizations which insisted on the noise elimination made their report. As a result of the complaints the 10,000 National Guardsmen taking part in the celebration went through a sham battle without firing a shot, and what might have been an active demonstration became a silent display of military tactics.

SEYMOUR TO TELL GRAND JURY HOW MEN GOT SECRETS

(Continued From First Page.)

inally prosecuting Mr. Burns I approve of his action you may dismiss as without foundation. I am reserving my right to commence civil actions for the injuries which I have suffered and I do not wish to lay myself open to the charge that I am using the criminal courts in aid of a civil suit.

"If for any reason not known to me the powers of the District Attorney and the Grand Jury are not amenable to protect the public interests you will please advise me and I will then subordinate my own interests to the interests of the public."

The District Attorney at once sent Mr. Seymour this message: "Please be prepared to go before the Grand Jury Wednesday morning at 11 o'clock and make complaint against William J. Burns on the evidence now in my possession and against any other person against whom you have sufficient evidence."

A long wait for Police Commissioner Arthur Woods kept the Thompson Investigating Committee idle during the forenoon to-day. The understanding was that he would join the committee in executive session this morning and that he would explain in secret anything they might want to know about the 350 cases of "wire-tapping" that have been done and recorded in the Police Department during the last two years.

"We have not been able to get any word from the Commissioner," said Counsel Frank Moss a little before 1 P. M. "I wrote him a letter yesterday, reminding him of our engagement for this morning, and I have sent twice to Police Headquarters for his subordinates who were active in

the wire-tapping business. The officials there say they do not like to take the responsibility for ordering any one down here, so a little while ago we sent up subpoenas for the men we want."

In a few minutes Mr. Moss added: "It's all right. As soon as they saw the subpoenas at Headquarters they suddenly remembered that Commissioner Woods was out of town. He will be here at 2.30 P. M."

Mr. Moss said that the committee would examine the policemen who made arrests recently in pool room cases at Coney Island after listening in on the telephones.

"The newspapers say they had no written permission to listen in in these cases," said Mr. Moss, "and we would like to find out whether these policemen have the habit of listening whenever and wherever they see fit. The men we want are Inspectors Murphy and McElroy and Policemen Wing, Daly, Brown, McClintock and McElroy."

Senator Thompson said to-day that the committee will hear Mayor Mitchell's testimony as to wire-tapping at 11 A. M. to-morrow. The Mayor had asked to be heard then, he added.

NOTE ON MAIL SEIZURES READY TO GO TO BRITAIN

Draft of New Protest Laid Before Wilson and May Be Sent To-Morrow.

WASHINGTON, May 22.—The new note to Great Britain making further protest against interference with American mails was laid before President Wilson to-day and probably will be sent to London to-morrow.

The general terms of the note were framed at the State Department, but the President is including some of his own language.

The note is understood to protest particularly against the British practice of taking vessels into British ports and there examining and detaining mail going to and from the United States.

The American note will make plain that the United States cannot consent to continuance of the policy to which it already has objected.

Not a "lemon" in the collection and not a job purchase of undesirable left-overs, but shirts made to meet a condition as noted below. About the best shirt proposition we have ever seen.

Here's the Story

We had this sale in mind eleven months ago—just after last year's. We said to our best manufacturers "we are in the market for 15,000 shirts; no hurry, take your own time, use this order to keep your factory busy when otherwise it would be dull,"—all with the idea of getting the price down to where we could give our customers an unusual treat. Now, here are the shirts; you'll be surprised with the quality. And when you stop to think of how prices are advancing, we believe you will take the tip and spend \$5.10 for a half dozen.

The Concentrating Sale of Dining-Room Furniture

One might make three blades of grass grow where one grew before; but no living man can put three sideboards on floor space covered by one. This is the problem which confronted us when we opened the new Housewares Store

on the Seventh Gallery of the New Building. Concentration—reduction of stock on display—reduction of prices to bring this about; that was the only thing to do. So we took \$25,000 worth, Wanamaker regular stocks, and put the prices down.
